

Quality Policy

COBA Precision Engineering has established, implemented and will maintain this quality policy to provide a framework for setting our quality objectives.

COBA Precision will follow a process-based approach and incorporate a risk-based quality management system.

Our aim is to continually improve performance levels in terms of consistency, product quality and delivery times.

To provide high quality products on time and in accordance with individual customer specification and contractual requirements.

To review and continually improve the effectiveness of the quality management systems, to both enhance and improve both internal performance and business reputation.

The Quality Policy will be available to any interested parties

January 2022
